

## SAFETY DATA SHEET

---

### Section 1: Identification

---

**Product Name:** Cellastim-S™ (Recombinant Human Serum Albumin)

**Product ID:** 777HSA017S

**Brand:** InVitria

**Use:** Cellastim-S is recombinant human serum albumin that is completely animal component free. Albumin is a cell culture supplement that functions as a carrier protein for fatty acids, growth factors, and trace minerals. Albumin also protects cells from damage due to toxins and by physical shear. Albumin is a common ingredient in many classical and custom media formulations. Albumin is used to reduce or eliminate serum and to support cell growth, health, and productivity. Cellastim-S has been shown to increase the performance of a wide range of cell types.

**Details of the supplier:** InVitria  
2718 Industrial Drive  
Junction City, KS 66441  
USA

**Telephone:** +1 800-916-8311

---

### Section 2: Hazards Identification

---

Classification of the substance: Not a hazardous substance.  
GHS Label elements, including precautionary statements: Not a hazardous substance.  
Hazards not otherwise classified or covered by GHS: None

---

### Section 3: Composition/Information on Ingredients

---

**Substance (Synonyms):** Cellastim-S

No ingredients are hazardous according to OSHA criteria.  
No components need to be disclosed according to the applicable regulations.

---

## Section 4: First Aid Measures

---

Description of first aid measures:

General advice: Consult a physician. Show this safety data sheet to the doctor in attendance.

If inhaled: If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

In case of skin contact: Wash off with soap and plenty of water. Consult a physician.

In case of eye contact: Flush eyes with water as a precaution.

If swallowed: Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

Most important symptoms and effects, both acute and delayed: The most important known symptoms and effects are described in Section 2 and/or Section 11.

Indication of any immediate medical attention and special treatment needed: No data available.

---

## Section 5: Fire Fighting Measures

---

Suitable extinguishing media: Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

Special hazards arising from the substance: No data available

Advice for firefighters: Wear self-contained breathing apparatus for firefighting if necessary.

Further information: No data available

---

## Section 6: Accidental Release Measures

---

Personal precautions, protective equipment and emergency procedures: Use personal protective equipment. Avoid dust formation. Avoid breathing vapors, mist, or gas. Ensure adequate ventilation. Avoid breathing dust. For personal protection see Section 8.

Environmental precautions: Do not let product enter drains.

Methods and materials for containment and cleaning up: Pick up and arrange disposal without creating dust. Sweep up and shovel. Keep in suitable, closed containers for disposal.

Reference to other sections: For disposal see Section 13.

---

## Section 7: Handling and Storage

---

Precautions for safe handling: Provide appropriate exhaust ventilation at places where dust is formed. For precautions see Section 2.

Conditions for safe storage: Keep container tightly closed in a dry and well-ventilated place.

Recommended storage temperature: -20°C (frozen)

Specific end use(s): Apart from the uses mentioned in Section 1, no other specific uses are stipulated.

Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet facilities.

---

## Section 8: Exposure Controls / Personal Protection

---

### Control parameters

Components with workplace control parameters: Contains no substances with occupational exposure limit values.

### Exposure controls

Appropriate engineering controls: Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

### Personal Protective Equipment

Eye/face protection: Safety glasses with side-shields conforming to EN166. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN166 (EU).

Skin protection: Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated

gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

Body protection: Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific workplace. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Respiratory protection: Respiratory protection is not required. Where protection from nuisance levels of dust are desired, use type N95 (US) or type P1 (EN143) dust masks. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Control of environmental exposure: Do not let product enter drains.

---

## Section 9: Physical and Chemical Properties

---

|   |                     |
|---|---------------------|
| Appearance:                                   | Powder, lyophilized |
| Odor:   | No data available   |
| Odor Threshold:                               | No data available   |
| pH:   | No data available   |
| Melting point/freezing point:                 | No data available   |
| Initial boiling point and boiling range:      | No data available   |
| Flash point:                                  | No data available   |
| Evaporation rate:                             | No data available   |
| Flammability (solid, gas):                    | No data available   |
| Upper/lower flammability or explosive limits: | No data available   |
| Vapor pressure:                               | No data available   |
| Vapor density:                                | No data available   |
| Relative density:                             | No data available   |

|  |                   |
|--|-------------------|
| Water solubility:                        | No data available |
| Partition coefficient (n-octanol/water): | No data available |
| Auto-ignition temperature:               | No data available |
| Decomposition temperature:               | No data available |
| Viscosity:                               | No data available |
| Explosive properties:                    | No data available |
| Oxidizing properties:                    | No data available |
| Other safety information:                | No data available |

---

## Section 10: Stability and Reactivity

---

Reactivity: No data available

Chemical stability: Stable under recommended storage conditions

Possibility of hazardous reactions: No data available

Conditions to avoid: No data available

Incompatible materials: Strong oxidizing agents, strong acids

Hazardous or other decomposition products: No data available

In the event of fire: See section 5.

---

## Section 11: Toxicological Information

---

Acute toxicity: No data available

Inhalation: No data available

Dermal: No data available

Skin corrosion/irritation: No data available

Serious eye damage/eye irritation: No data available

Respiratory or skin sensitization: No data available

Germ cell mutagenicity: No data available

#### Carcinogenicity

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

Reproductive toxicity: No data available

Specific target organ toxicity – single exposure: No data available

Specific target organ toxicity – repeated exposure: No data available

Aspiration hazard: No data available

To the best of our knowledge, the chemical, physical, and toxicological properties have not been tested and identified. It is unlikely that there will be any toxicological problems with this material.

---

## Section 12: Ecological Information

---

Toxicity: No data available

Persistence and degradability: No data available

Bioaccumulative potential: No data available

Mobility in soil: No data available

Results of PBT and vPvB assessment: PBT/vPvB assessment not available as chemical safety assessment not required/not conducted

Other adverse effects: No data available

---

## Section 13: Disposal Considerations

---

Observe all federal, state, and local environmental regulations.

Product: Offer surplus and non-recyclable solutions to a licensed disposal company.

Contaminated packaging: Dispose of as unused product

---

## Section 14: Transport Information

---

DOT (US): Not dangerous goods

IMDG: Not dangerous goods

IATA: Not dangerous goods

---

## Section 15: Regulatory Information

---

Questions regarding this material should be directed to InVitria.

Phone: (800) 916-8311 Fax: (785) 238-5688

Address: 2718 Industrial Drive  
Junction City, KS 66441 USA

---

## Section 16: Other Information

---

ISO: 9001 certified

Warranty: The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. InVitria shall not be held liable for any damage resulting from handling or from contact with the above product.
